The Eddy Current Guys

Eddy Current Inspection Support

Aerohoff can provide Level 1/2/3 technician support for your next major eddy current set of inspections or full scale fatigue project. We travel world-wide to perform open hole, surface, sub-surface, eddy current array, and advanced application eddy current such as MAUS Eddy Current with C-Scan results. We are your experts in eddy current inspection technology.

OTHER NDT SERVICES

- Eddy Current
- Ultrasonics
- Magnetic Particle
- Dye Penetrant
- Borescopic
- Corrosion Inspection
- Metallics and Composites

Specializing:

- MAUS C-Scan ET/UT/
and Resonance

If your next eddy current project takes one hour or one year, The Eddy Current Guys at Aerohoff are here to help. Call us today!
